

An aerial photograph of a city, likely Colombo, Sri Lanka, showing a dense urban landscape with numerous buildings, green spaces, and a coastline visible on the left. The image is covered with a semi-transparent blue gradient that darkens towards the top.

Leisure Diary

Leisure Diary

Hassle free all-in-one traveler

Name: **Mohamed Fariq Abdulla Sabith**

ID Number: **E026503 | Batch 07**

University ID: **K2282910**

Supervisor: **Prof. Ruwan Abeysekara**

Outline

- Leisure Diary is a story based solution provided by the company Afadamad (Pvt) Ltd to interact travelers and travel service providers to get a hassle free service and to overcome the mitigations faced by the travelers.

Introduction

- “**Leisure Diary**” is a proposed solution provided by the **Afadamad (Pvt) Ltd** who is a travel agent provides inbound and outbound travel services. The company has a huge network of **hotels, resorts, other leisure activities, and related services** in their chain.
- The project is to provide a hassle free solution to travelers and service providers.

Background and Motivation

- People are hassling in their day to day life and choosing to go on a trip to **relax their minds**. **Planning and organizing process** in a trip could be a **complex task** depends on the elements and people connected with that.
- The **primary Motivation** of this application is to make the **planning and organizing process** a hassle and to help the **travelers and related business to promote themselves and expand their business**.

Problems

- Drafting a plan **could be a difficult** task based on the elements or the **components related to it**. There are many elements to consider when drafting a plan such as **no. of people, their interests, place, type of food, transport, other leisure activities etc.**
- **Lack of information** about the places when creating a plan(Activities).
- Interlink their services with other services and to promote their services to clients.

AIM

To develop an all-in-one mobile application to plan, organize and execute a hassle-free trip to all the travelers' and other related stakeholders.

OBJECTIVES

- To identify and provide all in one solution for travelers to address all their needs through one application.
- To suggest recommendations for travelers to get decisions when planning a trip.
- To design a platform to other related stakeholders to promote their business.
- To build a communication and interaction method between travelers and service providers.

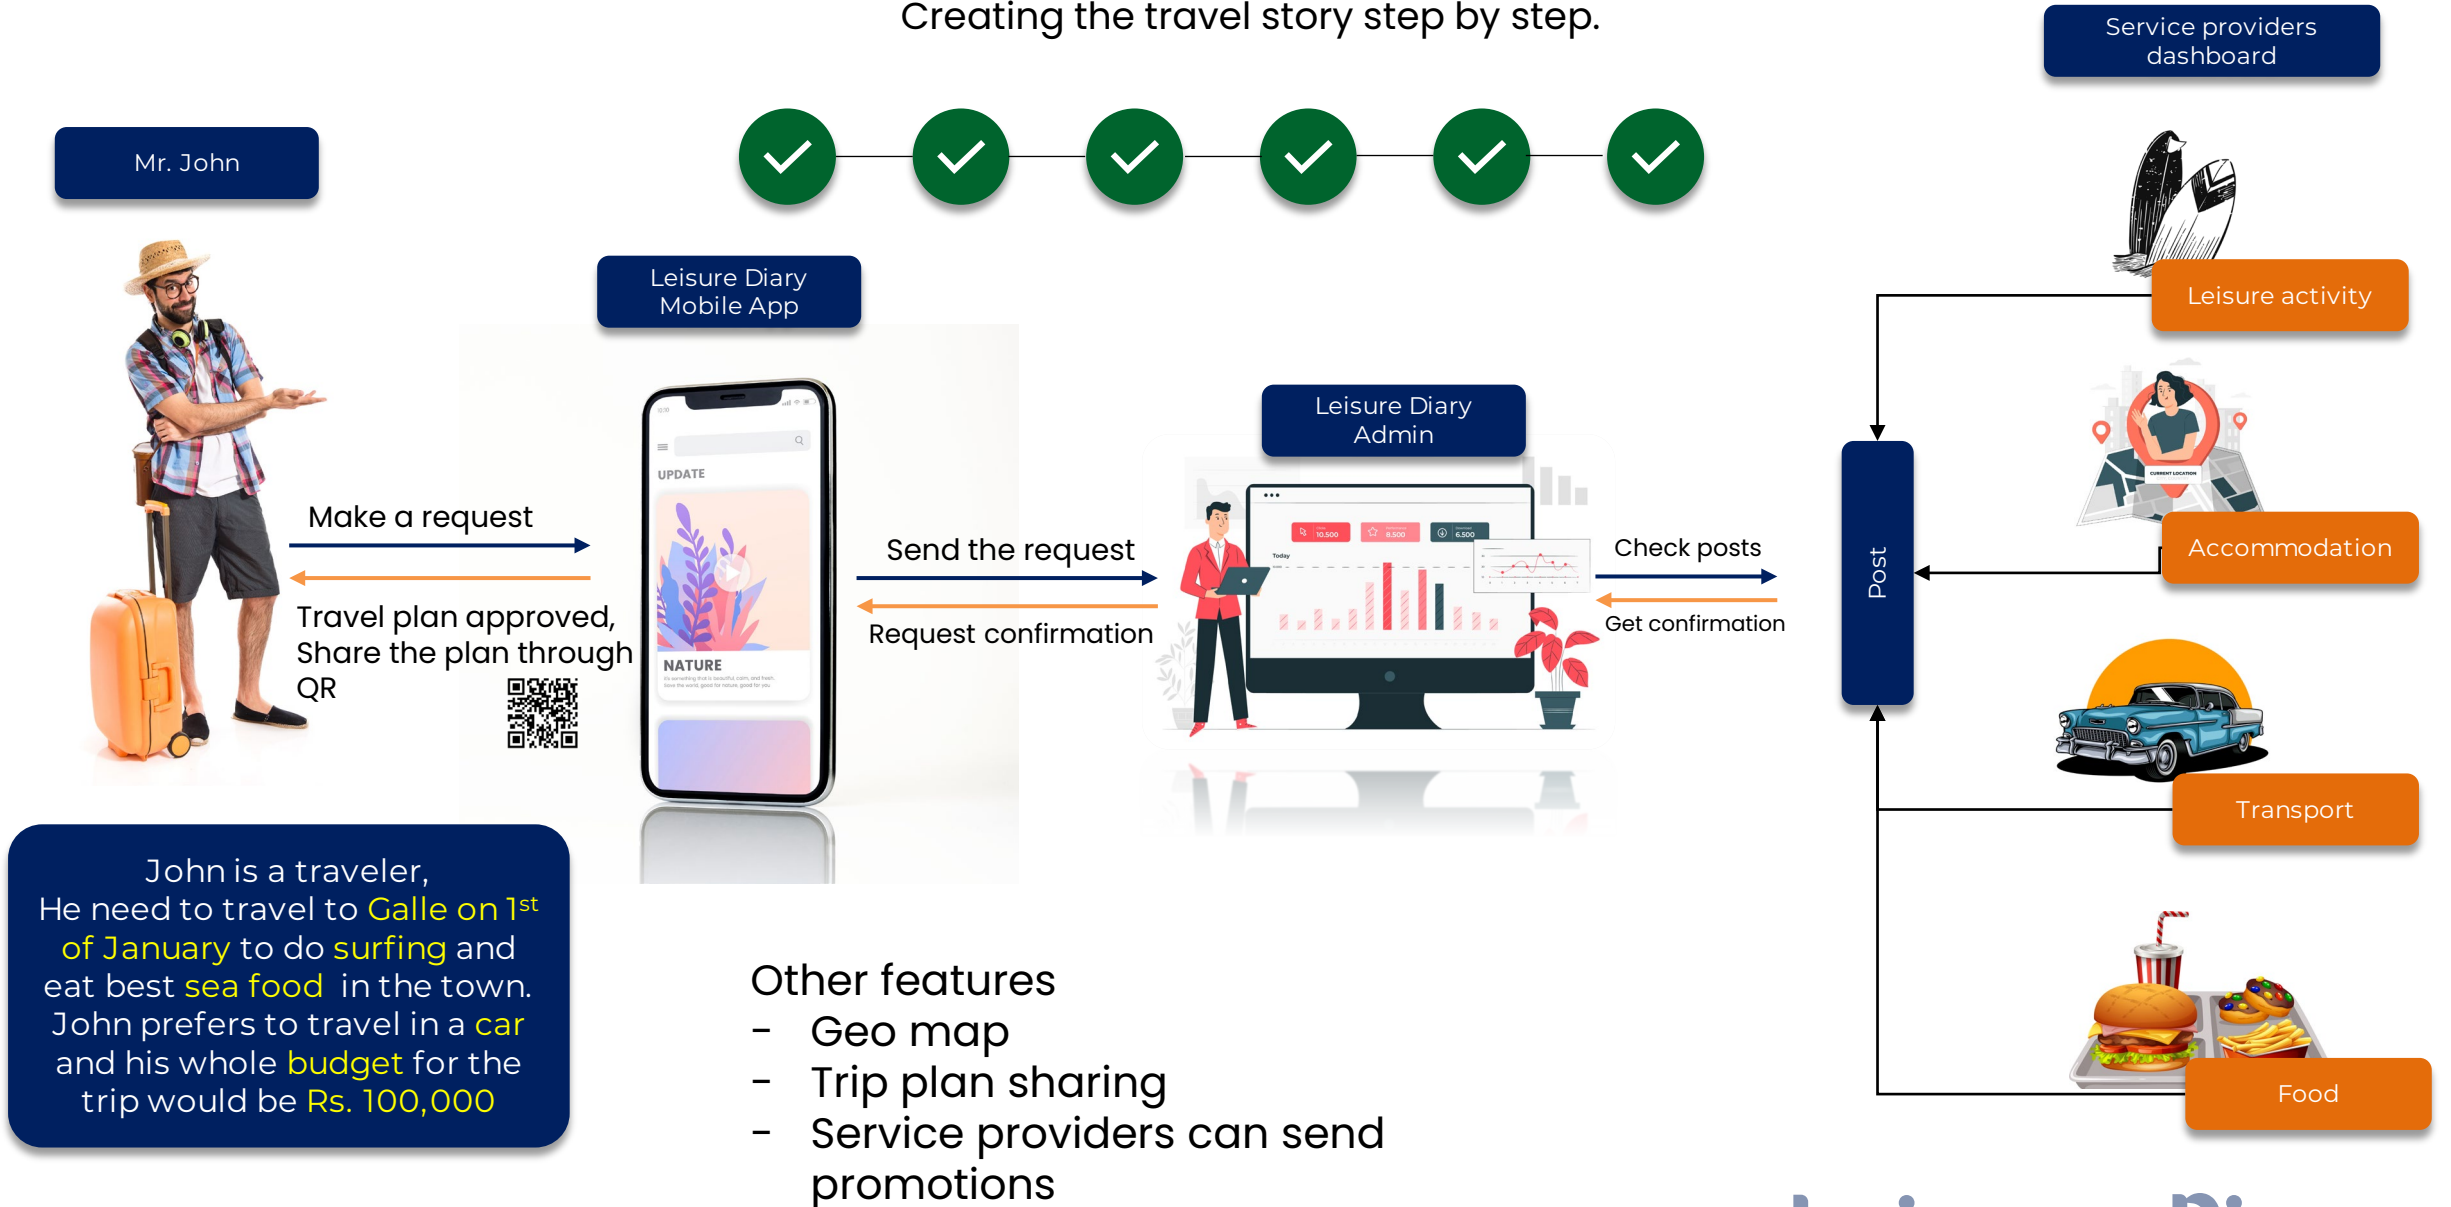

Proposed solution

- **All-in-One** hassle free **Mobile application** to fulfil travelers and service providers need.
- Travelers to make request from service providers and get confirmation through the application.
- Service providers can post their services in to the application through the dashboards provided to them.

Design of the application

Creating the travel story step by step.

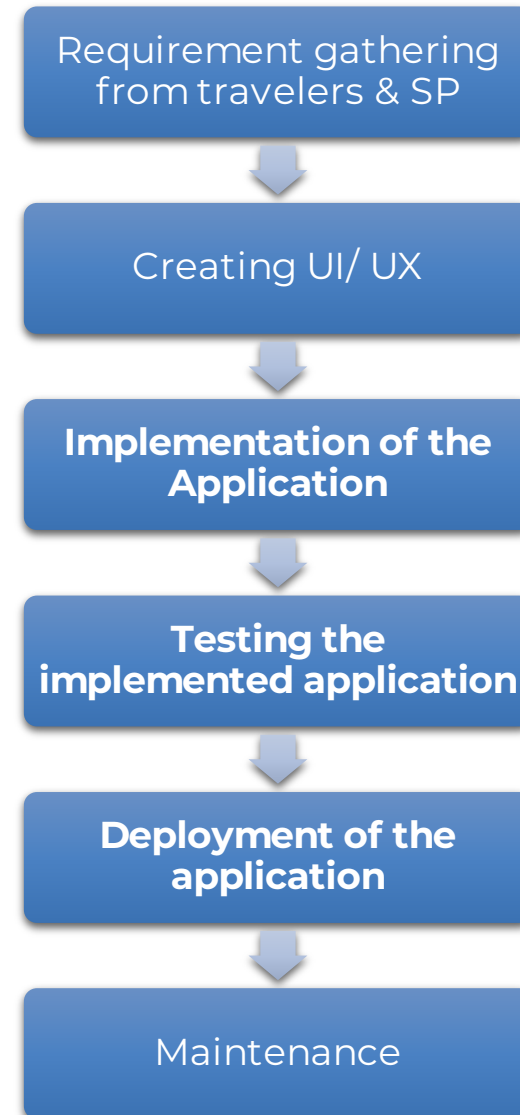

Leisure Diary

Methodology

Leisure Diary

Waterfall Model

Technologies & Resources

- A mobile application - Travelers
- Admin panel - Leisure Diary admin.
- Admin panels – each service providers.
- Connect everyone through rest API
- Technologies to be used

Conclusion

As the solution involves many stakeholders the company has decided to propose them the solution and to negotiate the contract while the solution is being implemented. Also, the company has planned to promote the application to attract the clients. The application is aimed to be a hassle free solution provided to the travelers and related parties.
